Directed by Patrick Bailey and Christine Judge

a drop of rain
falls to earth
to meet a mountain stream
never knowing as it goes
ebbs and flows
at journey's end
one drop becomes the sea

be still and know
be still and let the river flow

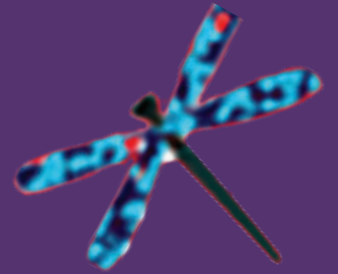

This spectacular song-cycle was inspired by a traditional story of the Tzutujil Maya from Guatamala. It draws on ancient Inca belief systems about the power of animals and the wisdom they inspire.

Lullaby of the Tides is the third of our combined schools, music projects. In 2021 we presented *Ocean World* to packed audiences, not to mention the partners of the G7 leaders, and in 2022 we staged *One Small Bird, the Ballad of the Red-necked Phalarope*.
